About Us

Global Crewing Solutions are pioneers in providing aviation professionals.

We deliver pilots, engineering personnel, operational and ground staff and VIP flight attendants to aircraft operators, lessors, airlines, government flight units, OEMS and private individuals.

As an internationally recognised supplier with an extensive global network of industry-leading candidates, we have personnel available to support both short and long-term vacancies all over the world - from one day to one year or full-time employment. Our rigorous vetting process and industry understanding ensures we source world-class aviation professionals with the right skills and experience to meet our clients' requirements, promoting diversity and best practice in the process.

Services

Our experienced development team is committed to delivering an unmatched comprehensive service, with total operational support. These services include:

Supplying day rate contract pilots, flight attendants and engineers, supporting requirements from one day to one year.

Discreet executive recruitment solutions, sourcing aviation staff, including engineers, pilots, operational, ground staff and VIP flight attendants. Our bespoke recruitment services provide innovative solutions to the most challenging requirements.

Headhunting for executive and senior positions.

Pre-employment screening, including a fully auditable security screening process which can include employment history verification, professional and academic qualifications verification, DBS checks, psychometric testing and social media searches.

Aircraft delivery and ferry flights, PPIs, demonstration (testing), support services.

Flight planning, including travel arrangements, visa applications, contracts, payroll and insurance policies.

Diplomatic, international clearances and regulatory services, including commercial landing permits, tech stop permits, overflight permits, HAZMAT permits, SFA, airport slots and TSA waivers.

Crewing Solutions

Pilots

At Global Crewing Solutions, we specialise in sourcing accomplished and time-served Fixed Wing Pilots who are type-rated and experienced across a range of aircraft.

Before selecting the most qualified pilot for the role, we take the time to understand exactly what our client is looking for.

We provide the most suitable pilots for the job and ensure that all training records, medicals and licenses are up to date and support our clients requirements.

Our specialist Fixed Wing Pilots are available for global missions, last-minute cover and long-term contracts. Once our selection is approved, we'll take care of the finer details (including travel arrangements and documents support) to ensure a seamless, unmatched service from start to finish.

Maintenance Staff

Our engineering and technical division offers an extensive range of maintenance staff with a vast array of engineering support skills on a multitude of aircraft and licence types.

Operational Staffing

Global Crewing Solutions ground crew and operational staffing support solutions can provide temporary or full-time support for key office and operational positions.
